**Own It?
Respect It.
Secure It.**

As a firearm owner, it is your responsibility to know how to properly handle any firearm you own and also to know how to secure your firearm(s) in a safe manner in your home. Project ChildSafe® has been created to help you accomplish these very important safety goals.

**Be a
Responsible
Firearm
Owner**

If you as a firearm owner feel uncomfortable accepting your safe-storage responsibilities, we strongly urge you not to own a firearm.

HANDLING FIREARMS IN A SAFE MANNER

Before handling any firearm, you should be familiar with the following safety procedures:

Be sure you know how the firearm operates. Not all firearms are the same.

Know how to safely open and close the action of the firearm and know how to safely remove any ammunition from the gun or from the gun's magazine.

The manufacturer's name and location are on every gun – write them for free safety and operating instructions.

Always keep a gun pointed in a safe direction, even when handling an unloaded gun. A “safe direction” means that the gun is pointed so that even if it were to fire it would not result in an injury.

Firearm safety begins with understanding and carefully following all the rules of safe gun handling.

Always keep your finger off the trigger, even when handling an unloaded gun. When handling a gun, rest your finger outside the trigger guard or along the side of the gun. The only time you should touch the trigger is when you are at a shooting range or other safe shooting location and you are actually ready to fire.

Never assume that a firearm is unloaded. Whenever you pick up a gun, the first thing you should do is point it in a safe direction and make sure it is unloaded. Open the action and look into the chamber(s), which should be clear of ammunition. If the gun has a magazine, carefully remove it before opening the action. Then open the action to be sure the chamber is clear of ammunition.

Remember, nearly all firearm accidents in the home can be prevented simply by making sure that guns are kept unloaded and locked up when not in use, with ammunition secured in a separate location.

STORING FIREARMS IN A SAFE MANNER

As a firearm owner, you must make absolutely sure that guns in your home are stored so that they are not accessible to children or other unauthorized persons. Hiding a gun in a closet, drawer or similar location is not safe storage. Children are extremely curious and might find a gun in your home that you thought was safely hidden or inaccessible.

As with most aspects of home safety, your objective as a firearm owner is to put in place a series of simple precautions (multiple safeguards) that together help create a secure environment for firearms in the home. Each of these precautions is designed to provide an additional barrier against unauthorized use.

KEY GUIDELINES FOR SAFE STORAGE

Unloaded firearms should be stored in a locked cabinet, safe, gun vault or storage case. Be sure to place a locked storage case in a location inaccessible to children.

Always re-check firearms carefully and completely to be sure that they are “still” unloaded when you remove them from storage. Accidents could occur if a family member has loaned or borrowed a gun and then carelessly returned it to storage while it was still loaded.

Unloaded firearms can also be secured with a gun locking device that renders the firearm inoperable. A gun lock should be used as an additional safety precaution and not as a substitute for secure storage. If firearms are disassembled, parts should be securely stored in separate locations.

**STORE AMMUNITION
in a locked location
separate from
firearms.**

FIREARMS KEPT FOR HOME SECURITY

The decision to maintain a firearm in the home for self-protection is a serious, personal matter. Unlike passive safety devices, such as alarm systems, firearms used for home protection require significantly more involvement by the owner. Any added safety benefit that may be derived from a firearm depends in large measure on the

owner's commitment to appropriate training and a clear understanding of safe handling and storage rules. Are your security concerns realistic and consistent with local crime rates? Do other adults in your household support the decision to maintain a gun in the home? If they will have access to the firearm, will they join you in a firearms training

and safety program? What precautions will be practiced to safeguard children? Do risk factors such as drug and alcohol abuse exist within your household? In addition, issues such as individual temperament, reaction to emergency situations, and specific family circumstances should also enter in the decision.

Find resources and tips to help prevent firearm accidents in the home:
[Project ChildSafe, Parents and Gun Owners](#)

If you must have quick access to a loaded firearm in your home, you need to take special safety measures. Home firearm accidents can occur when unauthorized individuals – often visitors – discover loaded firearms that were carelessly left out in the open.

If you choose to keep a firearm for home security, your objective should be to create a situation in which the firearm is readily available to you, yet

inaccessible or inoperative to others. Special lockable cases that can be quickly opened only by authorized individuals are options to consider.

You must exercise full control and supervision over a loaded gun at all times. This means the gun must be unloaded and placed in secure storage whenever you leave the gun in your home or elsewhere. Secure ammunition separately.

Your most important responsibility is ensuring that unsupervised children cannot encounter loaded firearms. The precautions you take must be completely effective. Anything less invites tragedy and is a serious violation of your responsibility as a gun owner.

Keeping a gun to defend your family makes NO SENSE if that same gun puts your family members or visitors to your home at risk.

DETECTING ACCESS BY AT-RISK AND PROHIBITED PERSONS

**Firearm Safety
Depends On YOU**

Firearm owners who live with a person who is at-risk or legally prohibited from possessing a firearm may wish to consider upgrading their storage levels to better meet their safe-storage responsibilities. You must be absolutely certain that no firearm can be accessed by an at-risk or prohibited person. Simply hiding a firearm is not secure storage and poses a risk.

Persons considered to be at-risk may include those with symptoms or history of treatment for mental illness, increasing patterns of alcohol/substance abuse, isolation or violent

behaviors or recent experience with a major life event—such as divorce, job loss or financial trouble. It also can be someone who you, the firearm owner, have good reason to believe is likely to do harm to themselves or others.

A person is legally prohibited from possessing a firearm if he or she is a convicted felon, fugitive from justice, unlawful user of any controlled substance, illegal alien, dishonorably discharged from the military, subject to a court restraining order, has been convicted of a crime involving domestic

violence, has renounced U.S. citizenship, or who has been deemed mentally incompetent (“a mental defective”) by a court or involuntarily hospitalized for psychiatric care.

In this situation, consider storing firearms not in use in a locked gun safe or other appropriate security device that is resistant to tampering by an adult. If for any reason you as a firearm owner feel

uncomfortable with or are unable to accept these safe-storage responsibilities given the circumstance of having an at-risk or prohibited person living with you, **we strongly urge you not to own a firearm.**

Temporary off-site storage is an option. Such storage can be effective, for example, if an individual living with you is in emotional crisis or exhibits significant

behavior change. Where allowed by law, friends who are gun owners might offer temporary storage. Your local firearm retailer may know of options for off-site firearm storage in your area.

Secure storage options for gun owners living with at-risk or prohibited persons include a locked gun safe, gun cabinet, lock box or storage case. For added security, portable storage

devices can be secured to a wall or the floor, or both, to prevent removal. In addition to locked storage, unloaded firearms can be secured with a gun-locking device that renders the firearm inoperable. Firearms can also be disassembled, with parts securely stored in separate locations. Please review fully the sections in this booklet titled “Storing Firearms in a Safe Manner” and “Options for Securely Storing Firearms.”

Learn more about at-risk behavior and find resources at the National Institute of Mental Health website: [nimh.nih.gov](https://www.nimh.nih.gov). As a family member or friend, you may be in a position to encourage a person in distress to seek assistance from a qualified provider.

The National Shooting Sports Foundation has partnered with the American Foundation for Suicide Prevention to increase education about firearms and

suicide prevention. Learn more about the AFSP-NSSF Suicide Prevention Program: <https://www.nssf.org/safety/suicide-prevention>.

Additionally, review the [Firearms and Suicide Prevention brochure](#) for helpful information on firearm storage and suicide prevention.

If you as a firearm owner feel uncomfortable accepting your safe-storage responsibilities, we strongly urge you not to own a firearm.

Learn more about persons who are legally prohibited from possessing firearms at the Bureau of Alcohol, Tobacco, Firearms and Explosives website: [click here](#).

In coordination with the National Shooting Sports Foundation and the American Foundation for Suicide Prevention, the U.S. Department of Veteran Affairs released the [Safe Firearm Storage Toolkit](#) to serve as a guide for communities to build awareness around safe firearm storage.

GENERAL HOME FIREARM SAFETY TIPS

Keep all firearms locked in a safe place, away from children and other unauthorized persons, when not in use.

Store ammunition under lock and key, separately from firearms.

Read and understand the owner's manual that came with your firearm.

Follow safe gun handling practices:

- Treat every firearm as if it were loaded
- Keep muzzle pointed in a safe direction
- Keep fingers off the trigger
- Keep the firearm unloaded when not in use

NEW GUN OWNERS

Firearm ownership is a right enjoyed by many Americans, and with that right comes the responsibility to safely handle and store firearms. The National Shooting Sports Foundation and Project ChildSafe remind new gun owners in particular of the many firearm safety materials they make available to help prevent accidents, theft and misuse.

To learn more about the basic steps of becoming a safe and responsible firearm owner, reference the [Buying Your First Gun guide](#). Additionally, find safe firearm handling tips [here](#) and always carefully follow the basic rules of gun handling.

OPTIONS FOR SECURELY STORING FIREARMS

METHOD	FEATURES	COMMENTS
<p data-bbox="189 401 258 455">Cable Lock</p> 	<p data-bbox="620 289 938 491">Widely available, can be used on most firearms, can also be used to lock a gun to a solid object.</p>	<p data-bbox="958 332 1765 448">Be sure to install according to directions, not around trigger; keys and combinations must be kept away from children; cable can be cut.</p>
<p data-bbox="150 602 239 656">Trigger Lock</p> 	<p data-bbox="620 537 938 702">Widely available, can block trigger but does not prevent loading.</p>	<p data-bbox="958 517 1760 717">Caution: should never be used on a loaded gun because it can cause the gun to fire under certain circumstances; can't be used on lever-action firearms; keys and combinations must be kept away from children and other unauthorized persons.</p>
<p data-bbox="162 840 316 917">Lock Box (Mechanical & Electronic)</p> 	<p data-bbox="620 810 842 887">Conceals and protects guns.</p>	<p data-bbox="958 748 1750 948">Provides secure storage for loaded or unloaded firearm, but in electronic models batteries will need replacement; depending on size, locked box can be stolen; keys and combinations must be kept away from children and other unauthorized persons.</p>
<p data-bbox="185 1056 291 1087">Gun Safe</p> 	<p data-bbox="620 1036 929 1113">Most secure storage for multiple guns.</p>	<p data-bbox="958 1013 1731 1128">Certain models are heavy, expensive; keys and combination must be kept away from children and other unauthorized persons.</p>
<p data-bbox="150 1282 324 1336">Disassembling Gun</p> 	<p data-bbox="620 1236 919 1352">Creates a condition where gun cannot be fired.</p>	<p data-bbox="958 1236 1750 1352">Not practical with all guns; requires knowledge of correct assembly and disassembly procedures; may lose the parts.</p>

STORING FIREARMS IN VEHICLES TO PREVENT THEFT AND MISUSE

We travel with our firearms all the time, taking them to the range, on hunting trips or carrying them on our person, as permitted by law. As a result, there will be times when you might have to leave your firearm in your vehicle.

This creates a situation that deserves careful consideration – the last thing you want is to have your gun stolen and potentially misused by a

criminal. In some states, you could even be subject under the law to serious penalties and fines for failure to properly secure a firearm.

It's your first priority as a responsible gun owner to keep guns out of the wrong hands.

If you must temporarily store a gun in your car or truck, for your safety and that of your community, we encourage

you to take steps to store them responsibly. Use a secure storage device, keep it out of sight, try not to be away from the vehicle for an extended length of time and, when you arrive home, take the firearm inside with you to your secure home storage area. Remember, the number one way to help prevent firearm theft, accidents and misuse is to securely store firearms when not in use.

UNDERSTANDING YOUTH MENTAL HEALTH AND PREVENTING UNAUTHORIZED ACCESS TO FIREARMS

Just as we all have physical health, which can vary from day-to-day, we also have mental health, and it's just as important to be cared for and looked after. Mental health is not stagnant. The internal and external factors that contribute to our mental health are always in flux. However, ongoing stressors can harm mental health. Someone with mental health challenges that become exacerbated or go untreated may consider suicide or harming others.

Parents play a critical role in helping identify changes in their teen's mood or behavior,

and can help support their children by having more regular conversations about mental health, and seeking help should struggles turn

into a crisis. Suicide is complex and is never the result of just one stressor. Parents who understand and recognize warnings signs

BE HONEST

— as early as possible — can step in to safeguard their child’s mental health and seek outside help if needed.

Mental health experts also agree that one of the most effective ways to reduce suicide is preventing access to methods of harming oneself. Understanding the warning signs and proactively preventing unauthorized access to firearms and other means by

those at risk can help reduce harmful behaviors.

Suicide is complicated and tragic, but it can also be prevented—and secure firearm storage is an important part of suicide prevention. This is especially true for teens, whose access to lethal means typically comes by way of their own homes. Practicing safe firearm storage and curtailing access for at-risk individuals can make the difference in the life of a teen who is contemplating self-harm.

With this in mind, Project ChildSafe, in coordination with the National Shooting Sports Foundation and the American Foundation for Suicide Prevention,

developed [A Guide for Parents](#) to help parents know what behaviors to watch for in teenagers that could point to suicide or self-harm risk, identify the steps to take when concerned about a child’s behavior and learn home safety steps to prevent unauthorized access to firearms or access to firearms by a person at risk for suicide.

LISTEN

A MESSAGE FOR YOUNG CHILDREN

Young people are naturally curious about firearms and, as a result, may be tempted to “play” with a firearm they find. Make sure young people in your home are aware of and understand the safety guidelines described below.

1. Don't go looking for guns in your house or a friend's house. Don't let other kids look for guns in your house.
2. If you find a gun in your house – or anywhere else – STOP! Leave it alone. Don't touch it. Don't let anyone else touch it. Leave the area and be sure to tell an adult at once.
3. Even if a gun looks like a toy, don't touch it. Some real guns might look like toy guns, so don't take a chance. Leave the area and immediately tell an adult.

REMEMBER... IF YOU FIND A GUN, DON'T PICK IT UP. JUST LEAVE IT ALONE, AND GO TELL AN ADULT RIGHT AWAY!

To help your children learn how to stay safe when firearms are present, have them watch [Not Cool, Kyle](#) and [Molly's Mischief](#) featuring McGruff the Crime Dog!

Have your child sign the pledge to always remain safe around firearms.

PROJECT CHILDSAFE CHILD'S PLEDGE

I Hereby Promise:

- I will not handle guns without permission from a grown-up that I know.
- I will never play with guns.
- I will not go snooping or allow my friends to go snooping for guns in the house.
- If I find a gun, even if it looks like a toy, I will not touch it; I will tell a grown-up I know right away.
- I will obey the rules of safe gun handling.

[DOWNLOAD THE PLEDGE HERE](#)

Share this “Own It? Respect It. Secure It.” badge on your social media pages, websites and blogs to remind gun owners to securely store their firearms when not in use and to show your support for Project ChildSafe.

Print the [“Own It? Respect It. Secure It.” badge](#) to show your support.

OWN IT? RESPECT IT. SECURE IT. PLEDGE

There are simple precautions every gun owner can take to make sure his or her firearms don't pose a danger to children or the community. Show your commitment to firearm safety and education – take the “Own It? Respect It. Secure It” pledge.

Pledge:

I choose to own a firearm and therefore accept responsibility for using and storing it safely. I commit to securing my firearm when not in use, being aware of who can access it at all times and educating others to do the same.

Signature _____ Date _____

You can become a community gun safety advocate and help Project ChildSafe share firearm safety messages and resources. If your local law enforcement department is not already a Project ChildSafe partner, have them sign up [here](#) to receive free resources and cable locks.

SUPPORT PROJECT CHILDSAFE

To donate visit:
projectchildsafe.org/donate

Project ChildSafe's free gun locks and education materials help prevent firearm accidents, thefts and misuse, including suicide. You can help make communities safer with a donation to Project ChildSafe Foundation.

The Project ChildSafe Foundation is a 501(c)(3) tax-exempt nonprofit organization. All donations to the organization are tax deductible to the extent allowed by law.

GUN LOCK SAFETY TIPS

- Keep cable and lock outside of trigger guard at all times.
- Always push cable into padlock and turn key until securely locked. After removing key, tug on cable to ensure connection is secure.
- Store key to the gun lock and the firearm separately. Be sure to store key in a location inaccessible to unauthorized persons, particularly children.
- Do not work the firearm's action with the lock in place. This may damage the lock and/or the firearm.
- If the lock's protective coating becomes damaged or separated from the steel cable or the lock face, replace the lock.

This lock consists of an armored steel cable with one end permanently secured to a keyed padlock. When lock is properly installed, the firearm is unloaded and the lock prevents the firearm's action from closing. This safety device meets the requirements of the American Society for Testing and Materials (ASTM) and the California Department of Justice.

The cable-style lock supplied in this Project ChildSafe safety kit should be used in addition to, and not as a substitute for, safe firearms handling and storage methods.

As a firearm owner, it is your responsibility to know how to safely handle and securely store your firearms.

ABOUT LOCKING DEVICES: No single lock will fit all firearms. The lock supplied in this Project ChildSafe safety kit will fit the actions of many commonly owned firearms (see installation instructions below). If the Project ChildSafe lock does not fit your firearm, we urge you to contact the manufacturer of your firearm to find out the type of lock recommended for it. A local firearms retailer or law enforcement agency can help you as well. Project ChildSafe urges you to find the appropriate locking device for your firearm so you can securely store your firearm in your home when not in use.

REMEMBER: No firearm's safety or lock can be a substitute for safe, careful gun handling and storage. This lock is intended to discourage unauthorized access to a firearm, particularly by young children. This lock may be defeated by a determined individual using tools or other aggressive means and may not prevent intentional misuse of a firearm.

! WARNING !

Before installing this or any gun lock, be sure the firearm is completely **UNLOADED** and the safety is on **SAFE**. When installing the lock, keep your finger off the trigger and always have the firearm pointing in a safe direction.

CABLE-STYLE GUN LOCK INSTALLATION INSTRUCTIONS

TO UNLOCK: Turn key clockwise. Remove loose end of cable from padlock and thread it through UNLOADED firearm as explained and shown below.

TO LOCK: With key turned to farthest clockwise position, insert loose end of cable into padlock. Turn key counterclockwise and remove key. Check that cable is secure.

Autoloading Pistols

With the slide locked back and magazine removed, insert the cable through the ejection port and out the magazine well. To lock: With key turned to farthest clockwise position, insert loose end of cable into padlock. Turn key counterclockwise and remove key. Check that cable is secure.

Revolvers

With the cylinder open, insert the cable through the barrel, or through an empty cylinder chamber. To lock: With key turned to farthest clockwise position, insert loose end of cable into padlock. Turn key counterclockwise and remove key. Check that cable is secure.

Autoloading and pump-action shotguns

With the bolt in the locked open position, insert the cable through the ejection port and out the loading port. To lock: With key turned to farthest clockwise position, insert loose end of cable into padlock. Turn key counterclockwise and remove key. Check that cable is secure.

Bolt Action Rifles

Open the action (lock it open if your firearm has a bolt hold-open device) and remove the magazine. Insert the cable through the ejection port and out the magazine well. To lock: With key turned to farthest clockwise position, insert loose end of cable into padlock. Turn key counterclockwise and remove key. Check that cable is secure. **OR...**

Remove the bolt from the rifle. Insert the cable through the ejection port and out through the end of the receiver assembly. To lock: With key turned to farthest clockwise position, insert loose end of cable into padlock. Turn key counterclockwise and remove key. Check that cable is secure.
